CURRENT POSITION

Senior Economist, EL-14 (April 2020 – present), Office of Fair Lending Oversight, Federal Housing Finance Agency (FHFA).

- **Mortgage Interest Disparities.** Developed, built internal support, and gained approval from senior management for new program to identify lenders with interest rate disparities and refer them to their regulators. Combined multiple very large data sets using a fuzzy match and conducted statistical analysis using methods based on rigorous financial economics theory, causal analysis, and grounded in law and regulation. Referrals have been incorporated into many regulators' examination process and led to numerous investigations.
- **Policy Review.** Led fair lending review of several major changes to GSE underwriting, credit-scoring, and pricing policies based on predictive default modeling. Proposed and evaluated alternate policies, often leading to their adoption. Analyzed complex financial and economic data; synthesized the results into understandable tables and charts; and presented information and recommendations to senior management.
- **Compliance Review.** Conducted analyses of appraisal bias using leading-edge machine learning techniques and conventional statistical methods to identify fair lending risks, resulting in revisions to appraisal methods nationwide.
- **Research.** Researched the role of time adjustments in appraisal bias, resulting in two blog posts and an academic paper; and mortgage interest disparities; methods for demographic classification, which was adopted as standard office practice; and land use regulation's relationship with Enterprise lending, which was presented to the White House Domestic Policy Council;
- **Technical Support.** Contributed to numerous FHFA projects mainly relating to data quality and new data collection efforts and provided advice to outside agencies on analytical techniques. .

OTHER PROFESSIONAL EXPERIENCE

Economist, GS-15, (August 2007 – April 2020), Office of Systemic Investigations, Fair Housing and Equal Opportunity (FHEO), U.S. Department of Housing and Urban Development (HUD).

As the first economist ever hired by FHEO, helped create new Fair Lending Division. Responsible for statistical and quantitative analysis on investigations of high-profile matters that are pervasive or institutional, involve novel or complex issues, or affect a large number of persons.

- Led econometric analysis team for numerous major lending investigations, including the largest redlining settlement in the U.S.
- Developed new methodologies to calculate damages due to mortgage pricing and denial discrimination;

procedures to screen lenders for further investigation using HMDA and FHA data; and model data requests.

- Presented statistical, economic, and GIS mapping analyses to internal and external audiences, both technical and non-technical, including lawyers in HUD's FHEO and general counsel's offices; investigators in HUD headquarters and the field; economists in HUD-PD&R and FHA; lawyers and economists from the Department of Justice (DoJ), Federal Reserve Board, and Consumer Financial Protection Bureau (CFPB); and opposing counsel and consultants for lenders and other respondents.
- Supervised economist and statistician contractors, including economics professors, other Ph.Ds, and research analysts.
- Trained HUD investigators nationwide in best practices for conducting lending investigations.

Economist and Chief, GS-13, GS-14, (April 2002 – July 2007), Housing and Urban Development (HUD) Analysis Staff, U.S. Census Bureau.

- Housing Research Program
 - Conducted independent housing research program leading to five papers (on the incentive effects of subsidized housing, measurement and dynamics of rent burdens, discrimination in mortgage lending, and second homes; three published) and two reports (on the characteristics of subsidized housing recipients and house price appreciation).
- Survey Improvement
 - Research on data quality leading to several reports on measuring income and housing assistance.
 - Took lead role in revisions of American Housing Survey (AHS) questions on income and mortgages.
 - Redesigned income allocation system for AHS using new regression/hotdeck method and published a paper documenting methods.
 - Led project to link the AHS to HUD administrative data. Coordinated a dozen staffers from four divisions and two agencies, obtained internal approval and funding, supervised technical staff.

TEACHING

- Introduction to Housing Data, 1-hour presentation at Understanding Federal Statistics Seminar (2-3 times per year, June 2003-July 2007)
- Econometrics, Johns Hopkins MA Program in Applied Economics (Spring 2002).
- Developed and taught 8-session course on Applied Duration Analysis and hazard models (lectures and computer lab) to Census Bureau statisticians (April 2001 - June 2001, September 2001 - November 2001).
- Teaching Assistant, Introductory Economics, University of California, Berkeley (Fall 1994, Spring 1995, Spring 1996)

EDUCATION

- Ph.D. in Economics (May 1999), University of California at Berkeley.
Concentrations in Public Sector Economics and Econometrics.
Dissertation title: "Housing the Poor"
Principal Advisor: Professor John Quigley
- A.B. (magna cum laude) in Philosophy/Economics (May 1990), Columbia College of Columbia University.

REFEREEING

- Referee for *American Economic Journal: Economic Policy*, *Journal of Public Economics*, *Journal of Legal Studies*, *Journal of Human Resources*, *Journal of Policy Analysis and Management*, *Journal of the American Planning Association*, *Regional Science and Urban Economics*, *Housing Policy Debate*, *Cityscape*, *Public Finance Review*, *Housing Studies*, *Real Estate Economics*, and *Journal of Real Estate Finance and Economics*. Recognized as Journal of Legal Studies Distinguished Referee for 2018-2020 for “outstanding” report.

GRANTS, AWARDS, AND DISTINCTIONS

2023	FHFA Excellence in Teamwork Awards
2021	FHFA Excellence in Individual Contribution Award (\$3,000)
2008-20	HUD individual cash awards (numerous awards, \$650 - \$1,720)
2004-05	Sole-authored research discussed in three textbooks (intermediate microeconomics, graduate econometrics, and urban economics; see publications section).
2000-06	Census Bureau special achievement awards (9 awards, \$500-\$1,350)
2000	Social Sciences Research Council Fellowship in International Migration (\$20,000).
2000	Charles M. Tiebout Prize in Regional Science, Finalist (\$250).
2000	“The Impact of Housing Investments and Public Services on Neighborhood Property Values”, Fannie Mae Foundation grant, co-Principal Investigator (\$87,000).
